The bonus is subject to a 10-year vesting schedule. 10% of the bonus will become vested on each contract anniversary until the beginning of the 11th contract year, when 100% will be vested. If you surrender your contract before the 11th contract year, you will lose the unvested bonus. Bonus annuities may include higher surrender charges, longer surrender charge periods, lower caps, higher spreads, or other restrictions that are not included in similar annuities that don't offer a premium bonus feature. During the first 10 contract years, we will apply a surrender charge and unvested bonus reduction if you partially or fully surrender your contract. The same would apply if you begin annuitization, which means receiving regular annuity payments over a specified period of time, prior to the sixth contract year (or for fewer than 10 years). These charges may result in a loss of bonus, indexed interest and fixed interest, and a partial loss of principal (your premium).

The Blended Index is comprised of Dow Jones Industrial Average (35%), Barclays Capital U.S. Aggregate Bond Index (20% Index), and Russell 2000 Index (10%) Standard & Poor's 500[®] index (S&P 500[®]) is comprised of 500 stocks representing major U.S. industrial sectors.
